DANCES WITH FILMS

LA's FAVORITE FESTIVAL RETURNS!

We are exhilarated to be back in the electric Apple! DWF has found itself a second home with this welcoming city that celebrates artists and visionaries alike.

So to give you an idea of the who, what, and why of it all...

DWF began in the '90s to champion storytellers who were being squeezed out by the big festivals because their films had no stars. It was the festival dawn before film festivals popped up on every street corner.

We began with a purpose, a reason, a vision... and we adopted our motto "No politics. No Stars. No sh*t." That's carried us far beyond and into the winter of our 26th year. Resilience, strength, fortitude, compassion, *passion* and vision. Words to describe these dreaming risk-takers and their projects that we champion each year. These words also describe the "why" of the festival itself.

We are profoundly grateful to the staff, volunteers, sponsors, film enthusiasts and filmmakers (numbering in the tens of thousands) who have been the core of this journey (and our family) from the beginning.

Now, as the world seemingly gets smaller and, at times, more divided; we are privileged to count you as family and in our circle of friends.

We encourage every one of you to bring kindness to those around you. Bring light to those in darkness, and humanity to those in need.

Welcome to the 2nd edition of DANCES WITH FILMS:NY! United. Independent. Risk-Takers. Always.

When skeptical scientist Alice falls for reluctant medium Jay, she's taken on an odyssey of love, loss and discovery that will turn her world upside down. Between the Lights (made with support from Creative England and filmed in York and the Lake District) is a romantic drama with a liberal dose of the supernatural, in which we visit our characters over three consecutive Christmases.

Between the Lights has been described as a nuanced, supernaturally tinged romantic ghost tale with echoes of A Ghost Story and Truly Madly Deeply. The film features West End stage supremo Ines De Clercq in her first leading screen role, and RADA graduates Samuel Edward-Cook (Peak Blinders, Better, and Shane Meadows' The Gallows Pole) and Richard Riddell (Star Wars: The Force Awakens, Legend, The Terror, Curfew).

This throws Ky into suicidal ideations until Mikah, a bright and optimistic 12 year old boy, decides to disregard the latest craze of dancing with Roboto and instead asks Ky to choreograph for his school performance. While at first Ky reluctantly decides to help the kid, he begins to find a bit of light in his life again. And when it’s revealed that Mikah had a battle with cancer Ky’s perspective is completely shifted.
